## FRATERNAL ORDERS WILL CELEBRATE

Secret Societies of South City  
Are Planning to Entertain on  
The Fourth of July

Arrangements Will Probably be Per-  
fected During week and Committees  
Appointed to Take Charge

The fraternal orders of South City have united for the purpose of celebrating the Fourth of July in first class style this year. Already several of the lodges have taken the matter up and it is expected that before another week has passed committees will be appointed and the work put under headway.

The Eagles and the Woodmen were the first to take the matter up and resolutions were adopted by both these Orders upon the same evening. Other orders followed and the resolution will be carried into every Order in town and if it meets with the same enthusiasm in every hall as it has in those it has already gone through, South City will have one of the best celebrations in its history.

The plan of the celebration has not been perfected as yet but it is believed that a barbecue will be the main feature of the day. It has been suggested that Francis J. Henry will be given an invitation to deliver the oration of the day and all the fraternal societies on the peninsula will be invited to take part in the celebration.

Besides the barbecue games of all kinds will be gotten up such as a tug of war, foot racing, etc. A dancing platform will also be erected in the open air and the best of music furnished.

## COURT NOTES

The will of William Dooling, deceased, has been filed for probate. He died in this county March 22, 1907, leaving an estate of \$3000, consisting of money deposited in the Savings Banks of San Francisco. The will is dated February 14, 1907, and the subscribing witnesses are A. H. Mosher and D. C. Mosher. John Dooling, who presented the will for probate and who is a brother of the deceased, is the sole legatee and devisee. The other heirs at law are a sister, Mrs. Mary Kerr, residing in Camden, Oneida County, New York; Mrs. Hanora Erwin, residing at St. Boniface, Manatoba, Canada, and two nephews living in the State of New York.

W. Z. Price, through his attorneys, Ross & Ross, has commenced a suit in the Superior Court against the North German Fire Insurance Company, of Hamburg, Germany, to recover \$600 on a policy written June 9, 1905. Mr. Price was conducting a restaurant in San Francisco and had the stock of the restaurant, bakery, provisions, supplies and fixtures insured for that amount. They were destroyed by the fire on April 19, 1906. A proof of loss has been made, but the company failed to pay the loss. Mr. Price sues for \$600, interest from April 19, 1906, and costs of suit.

Estate of John Moller, deceased; final account of James Crowe settled and allowed and petition for distribution granted.

Estate of T. G. Phelps, deceased; hearing on final account and petition for distribution of Josephine Phelps further continued to April 25th.

Estate of P. M. Partridge, deceased; hearing on final account and petition for distribution of John Partridge further continued to April 25th.

Estate of Manuel Oliver, deceased; petition of Amelia Oliver for probate of will continued to May 2d.

Estate of R. I. Knapp, deceased; hearing on return of sale of personal

## COLD WEATHER IN EAST

KANSAS AND COLORADO EXPERI-  
ENCE FREEZING WEATHER—  
FRUIT IS DAMAGED.

Denver, Col., April 26.—Freezing weather, with a light snow, prevailed in Eastern Colorado last night. In Denver and throughout the north-eastern portion of the State, the temperature fell to 22 degrees. At Grand Junction, in the western part of the State, the lowest temperature was 46. It is said that fruit in that district has not been damaged to over 20 per cent by the late frosts.

Colorado Springs, Col., April 26.—Colorado Springs and vicinity was visited by light snow and freezing weather last night. A circular letter received by the commission houses in this city and signed by the Delta County Fruit Growers' Association, announces that fruit of all kinds in that section of the State has been killed, and that there will be no fruit for sale this year.

Kansas City, Mo., April 26.—Snow in Northern Kansas and Northern Missouri and freezing weather extending from the Nebraska-Iowa State line south into the panhandle of Texas, was reported by the local weather bureau, with predictions of colder weather tonight.

**Want Republican Convention.**  
Washington, April 26.—Seattle St. Louis, Kansas City and Chicago have made formal application for the honor of entertaining the next Republican National Convention.

property further continued to April 25th.

Estate of Lucien Lagrande, deceased; will admitted to probate and Jennie Lagrande granted letters testamentary.

Estate of Theodore F. Payne, deceased; will admitted to probate and letters testamentary granted to Mrs. Mary Pauline Payne.

Estate of Daniel A. McKinnon, deceased; order made appointing William B. McKinnon administrator, with bond fixed in the sum of \$2000.

Ernesto Rellagliata vs. J. Garbalinio; hearing on return of A. Costa, receiver, further continued to April 25th.

Anna Husing vs. S. Greenbaum, et al.; order made giving judgment to plaintiff as prayed for.

Matilda Taschner vs. Gustavus Taschner; trial for above action set for April 25th.

## TEACHERS CONTEST GROWING WARMER

Miss Etta L. Neumann Heads  
The List. Look Out for a  
Change the Coming Week

El Carmelo Hotel at Pacific Grove an  
Ideal Place to Spend Summer  
Vacation

At the counting of the votes for the teachers' contest Thursday evening Miss Etta L. Neumann headed the list with nearly a thousand majority and many of her friends have declared that she shall win the prize. Miss Lewis, however, has many substantial friends who also declare that she will not be many votes ahead at the final counting, and while several have paid their subscriptions, they have held their votes to be cast at some future date.

While these two teachers are fighting to be the representative from this township, Miss Sallie Nelson, of Redwood City, is now heading the list of outside townships, and unless some of the other teachers come to the front shortly she will probably be the one to win the second prize.

Remember the prize—A week's vacation at the El Carmelo Hotel, Pacific Grove, for the two most popular teachers in San Mateo county.

Following is the standing of the teachers, Thursday evening:

FIRST TOWNSHIP  
Etta Naumann—1407.  
Winnie Lewis—438.  
Marguerite Kauffmann.  
Grace Lane.  
SECOND TOWNSHIP  
Clara Abbott.  
THIRD TOWNSHIP  
Sallie Nelson—203.  
FOURTH TOWNSHIP  
Mabel Nichols.

## Monte Carlo Victim Turn Robber.

Genoa, April 26.—A Polander named Galusianski, who recently lost a fortune at Monte Carlo, made a desperate attempt to rob a bank here yesterday. He secured rooms at the Hotel Regina and going to the banking house of Ferrari, said he wanted to change 8,000 marks to Italian money, asking that the bills be sent to the hotel. When a clerk came with the money Galusianski shot and tried to rob him, but was arrested before he could escape with the money.

## MASQUERADE BALL A GRAND SUCCESS

Many New and Novel Costumes  
Are Worn and Prizes Given to  
The Most Deserving

First Prize is Carried Off by Mrs.  
Smith who Represents the Enter-  
prise and Gives out Papers

The Ladies' Pioneer Club, of San Bruno Park, gave a most enjoyable masquerade ball in the school house at the Park last Saturday evening, which was well attended, not only by the people from the Park, but many people from a distance. Many of the costumes were new and novel and in many cases were the original ideas of the wearer. The class-room of the little school proved too small for the large crowd and before the evening was over many of the guests were obliged to sit the dances out to make room for the others.

The grand march was led by Mrs. A. J. Tucker, who wore a costume representing a "Spanish Dancing Girl," and H. Shepherd, who took the part of a "Russian General." Both these characters were well taken and at midnight Mr. Shepherd was awarded the first prize for the best gentleman character.

One of the neatest costumes worn that evening was that of Mrs. Frank Smith. Her costume was made of the headlines of the ENTERPRISE and showed that the lady had without a doubt spent many hours of hard work to get this dress just as she would like it. Mrs. Smith carried a paper bag containing the latest ENTERPRISES and during the evening passed the papers out among the large crowd present. So well did Mrs. Smith take off her part that there was little trouble in selecting the winner of the first prize for ladies, and the judges were unanimous in their opinion that this lady should carry it off.

Miss Kate Walsh, in her take-off of "Topsy," was good, and the young lady was awarded the second prize for ladies. Elmer Meade won the second prize for gentlemen, in his take-off of "Uncle Tom." So many other costumes were worthy that it is impossible to give special mention to each and for that reason the winners' only have been selected.

Local talent furnished the music, and between dances ice cream and cake were furnished by the ladies.

## Poisonous Weed Kills Sheep

Hundreds of sheep on the ranges in the northern part of Nevada, are dying from the effects of eating a poisonous weed, which is quite rank in that section.

The sheep men state that veterinary surgeons are unable to successfully combat this disease and that they may be compelled to drive the sheep from the ranges.

The vegetation is in the form of a weed and grows thickly with the bunch grass. It has a dark green foliage and resembles other vegetation growing on the mountainsides. When an animal eats any of this poisonous weed it is seized with pains and in a short time dies in spasms.

The Sophomore class of the Redwood High School will give a dance in that city to-night.

## Duty on Corn.

Stockholm, Sweden, April 26.—The Parliamentary committee appointed to discuss the duty on corn has reported in favor of a reduction of the tax from about 92 cents to about 38 cents per hundred kilograms. It is expected that this action will greatly increase the importation of American corn.

## BURGLAR CAUGHT IN BATH ROOM

Man Giving His Name as James  
Arnold Enters the Home of  
Mrs. J. H. Kelley.

Lady Rushes For Help and Faints On  
Door Step After Telling Neighbors  
of Her Find.

A man giving the name of James Arnold was caught in the home of Mrs. J. H. Kelley last Thursday morning and is now being held in Redwood City pending further investigation of his character. The man told many stories as to how he came into the house and in many cases contradicted himself several times.

Arnold was discovered in the bath room about 9 o'clock in the morning by Mrs. Kelley, who walked into the room before she realized that any one was there. The lady uttered a scream and rushed into the adjoining flat, where she fainted after telling her neighbors what had happened.

Bruce I. Norton and Geo. Shapland rushed into the house and found Arnold still in the bathroom. When asked what he was doing there Arnold quietly answered that he was preparing to take a bath. Deputy Sheriff Daneri was immediately sent for and placed the man under arrest.

To the Deputy Arnold stated that he had walked from Santa Cruz that morning and when within some ten miles from town he met a man who claimed to be the owner of the house which he had entered. He claimed that this friend gave him permission to crawl through the window to take a bath, but when asked what had become of his friend he could not tell.

Judge McSweeney expressed the belief that the man has a record and after placing a vagrancy charge against him sent him to Redwood City to await further investigation.

## SAN MATEO HIGH SCHOOL ENTERTAINS

San Mateo High School entertained a large audience last Friday night in a most delightful manner. Cyrus B. Newton, the great humorist, entertained the people for an hour or more. It was a time when Cyrus Newton was at his best. His ready wit and keen jokes made the audience appreciate him as a great humorist. He imitated several characters perfectly and spoke several fine monologues. The Troubadour quartette then held the audience for the rest of the evening with several fine songs. The audience departed, all thinking this a most novel and delightful way for the High School to entertain.

Teachers—Summer is coming, you want a week's outing. Remember the contest.

MEETS DEATH ON  
MILLBRAE MARSH

John Brogan, a San Francisco teamster was accidentally shot and killed while out hunting on the Millbrae marshes last Friday. Brogan was accompanied by his brother and two friends but none of them know how the gun came to be discharged. The man was alone in a towboat at the time.

David Dean, J. Hill and Mr. Jefferson, comprising a surveying party in the employ of D. Bromfield of this city, were on the marshes at the time and were informed of the accident by Brogan's companions. Says Mr. Dean:

"We immediately went to the scene of the accident and found him suffering from a large gun shot wound received in the right side below the ribs, and after much difficulty crossing sloughs and swampy places brought him to Aqua Station where we put him on board one of the electric cars, accompanied by his brother and two friends who brought him to a hospital in San Francisco."

He was taken to St. Luke's Hospital where he died.

## Is It In The Air?

There has been quite a number of engagements of late and not a few weddings in South City. The latest coming to the writer's ears is that one and possibly two (?) closely allied with the ENTERPRISE are about to assume the yoke—on separate occasions.

Long threatening will come at last. There is to be a grand spread. That's what we printers like, for we are always hungry and thirsty. Suppose we will have to wait until June. The editor-in-chief has been absent for an hour and has just returned—he is all smiles.

FOR SALE—Nice modern residence on Grand avenue. This property is cheap. Must be sold soon.

REDWOOD CITY  
NOTES IN BRIEF

Mr. and Mrs. Morris Cooper visited Mr. Cooper's parents on Sunday.

Mrs. M. A. Cloud made a trip to the metropolis the early part of the week.

Mr. and Mrs. Jacob Spoolman, of Sierraville, are visiting Mrs. Spoolman's parents, Mr. and Mrs. W. O. Dodge.

Among the delegates to the Santa Clara Association, now in session, is Mr. McPherson from Saratoga, who will also make a visit with his daughter, Mrs. F. George.

Roderick Heydenfeldt, son of T. O. Heydenfeldt, met with a painful accident the other day. While at play on the school campus he was thrown down and received a badly sprained ankle. Medical aid was summoned and the sufferer was conveyed to his home on Selby Lane by Dr. Ross, who attended him.

J. H. Mansfield lost a fine brood mare last week. The colt is alive and the valuable little creature is being raised on the bottle.

Mrs. D. A. Curry of Palo Alto was a recent visitor.

The community has been saddened by receiving the news of the death of Edson D. Wilcox, of East Oakland. The young man has been mentally deranged for some time, and in one of these spells, while unobserved, committed suicide by taking carbolic acid. He was a native of Redwood, aged 27 years.

Captain M. Smith, Treasurer of the Southern Pacific railroad, died at his home in San Carlos on Monday night, after a lingering illness. He was 77 years of age and leaves a widow. The funeral took place on Thursday, when the remains were laid temporarily in a vault at Cypress Lawn. A special train brought many of the railroad officials, with whom Captain Smith was very popular.

J. Curran Clark, the well-known real estate man, while driving to his home at East Greenwood, was run into by a man driving a fast horse. He was thrown from his buggy and had his collar bone broken. Mr. Clark is at the office again, though still wearing splints and bandages.

Two carloads of gaspipe for this vicinity were unloaded this week.

Neighbor Toso of the planing mill has several contracts he is rushing to finish.

Petterson has just given his store a new coat of paint.

Mrs. Hudson made an enjoyable trip to San Jose this week.

Sam Shear has just bought himself a prancing pair of bays which he enjoys immensely.

Miss Ruth LeRoux has entirely recovered from her illness.

The school house will be brilliantly lighted with electric lights for the Ladies' Ball on the evening of the twentieth.

A new doctor has lately arrived in San Bruno and intends to make it his home.

Mr. Melch was surprised by a toy pistol exploding in his hands.

Hunt & Maloney, the Fourth Edition Contractors, report many new contracts for that vicinity.

The pipe laying in the Belle Air Park is well under way, to the delight of the General Manager, Mr. Clark.

Walter Moore, Sr., and his daughter, Miss Ida, were visitors in South City during the week.

Maron Rame was arrested by Deputy Sheriff Emil Daneri last Thursday and sentenced to ten days in the county jail for peddling without a license.

Czar and Carlo Agesri were arrested near Colma by Deputy Sheriff Daneri last week and charged with disturbing the peace. It was alleged that the two men created a disturbance on one of the San Mateo cars and went so far as to strike the conductor. The case was dismissed for the lack of evidence.

## An Earthquake Pie

On the morning of the 'quake of a year ago, the Chinese cook of the Capital hotel made his way through the wreckage and put the fire out in the range, thus in all probability saving the building from destruction by fire. He did not look in the oven, and last Thursday some people found a pie there which was slightly overdone. It was placed on exhibition in the window of Lippman's new store. Relic seekers will find a good plaque.—Redwood Democrat.

## SUPERVISORS MEET IN REDWOOD CITY

Outside of the reading, altering and  
adopting of plans and specifications  
for the new courthouse, there was  
little business transacted by the Board  
of Supervisors on Monday last. The  
examination of plans consumed nearly  
the whole day and when the reading  
had been completed and the corrections  
made, as required to make all the  
copies identical, the blue prints were  
examined, and it was found that the  
changes ordered had been made.

Supervisor Blackburn made a motion  
seconded by Debenedetti that the plans  
for the courthouse presented by Glenn  
Allen of San Francisco, be finally  
adopted, and he be awarded first prize,  
\$1, and supervision of work, carried.

On motion of Supervisor Debenedetti  
the District Attorney was directed to  
prepare resolutions of acceptance of  
architects plans, and also for advertis-  
ing for bids on construction of building,  
papers to be read at next meeting.

On motion of Supervisor Debenedetti  
the time for completion of the court-  
house was set at fifteen months from  
signing of contract, and the con-  
tractor to be subject to the penalty of  
\$10 per day for every day required over  
specified time, and to be entitled to a  
premium of \$10 per day for the com-  
pletion within the time.

On motion of McBain, the second  
prize to architects, \$400, was awarded  
to Shea, and on Supervisor Eikern-  
kottor's motion the third prize, \$100  
was awarded to Martins & Coffey.

Supervisor McBain requested an  
order from the board as a matter of  
emergency to allow him to contract  
for the opening of a road down Tunitas  
Creek from "Grabtown" to boundary  
line of the fourth township, near  
Hughe's Mill. Wyman & Felix are  
the contractors and a bond of \$400  
was presented to the board. On  
motion of Supervisors Debenedetti the  
request was allowed.

Sheriff Chatham applied to the board  
to have a padded cell installed in the  
county jail. Matter was referred to  
Supervisor MacBain.

Board adjourned to May 6th.

custody. He was kneeling in an atti-  
tude of prayer and had held his rigid  
upright position for hours, it is said.  
He had evidently spent some time in  
the creek and said he had slept there.  
Deputy Sheriff Boland turned him  
over to the authorities at Redwood  
City, where he gave his name as Jake  
Brix, but no further information was  
obtained.—San Mateo Times.

## Mastodon Bones Found Near Wienke's

The skeleton of some monster animal  
has been discovered near Wienke's  
Moss Beach. A portion resembling  
the hindquarters measured seven feet  
nine inches across and had attached to  
it bones twelve inches in diameter re-  
sembling the vertebrae of a short tail.  
What appears to be the section of a leg,  
between the knee and foot joint, was  
also taken out. Its length is three  
feet one inch, and it is six inches thick,  
eight inches wide and eighteen inches  
in circumference. It weighs about  
thirty-five pounds. Several smaller  
bones resembling joints of a foot were  
lying about the larger ones.

The heavy rains caused a small  
creek to change its course and wash  
out the base of a fifty foot bank.  
Wienke had noticed the large bones  
for several days and dug considerably  
around them before he appreciated  
their size. It required the efforts of  
several men and the assistance of a  
team of horses to haul the larger sec-  
tions to a clear place on the beach.  
The location of the find is near the  
line of the Ocean Shore Railroad, and  
only a short distance from the ocean  
beach.

It has been known for several years  
that fossil remains were to be found in  
this county. A large bed of them was  
uncovered on a hilltop on the Weeks  
ranch, near La Honda.—Coast Advo-  
cate.

THE Good Roads Bond Proposition for San Mateo County is making haste slowly.

The three twenty-five-dollar-a-day experts have gone over the route from the San Francisco to the Santa Clara County line and found the distance to be thirty-one miles. We understand the experts have also made a lump-sum estimate of cost. The value of such estimate is less than its cost. What the latter may be depends upon the time consumed in viewing the route.

The per diem of the three experts at \$25 each is \$75 per day, and of course there will be incidentals. The County of San Mateo has an official known as the County Surveyor. This official is a salaried officer, elected by the people to do the official surveying for the county. The present incumbent, Mr. Newman, was himself appointed by the Board of Supervisors to fill out the term of the late Mr. Gilbert, deceased. If Mr. Newman was fit, in the opinion of the Board of Supervisors, for the office of County Surveyor, he should have been good enough to make the preliminary survey for the proposed roads. After the filing of the report of the County Surveyor, in case the Board had doubts as to the correctness or reliability of the estimates, other experts might have been called to test the work of Mr. Newman. In the latter case a working engineer would have been better than a college professor or a landscape gardener.

We understand that the Legislature, at its recent session, made some material changes in the road laws of the State.

We also understand that the Board has become lukewarm with regard to the entire subject of the bond issue and road improvement. An improved, up-to-date road, to provide a thoroughfare from the City of San Francisco through all the peninsular towns, has become an imperative necessity. It is the duty of the Board of Supervisors to go forward in this matter. If the Supervisors cannot act under the old law let them act under the new Statute. The people are in favor of a good road. They will vote the money to build it under proper restrictions. Let the Board of Supervisors do their duty.

A GENUINE real estate boom has precipitated itself upon this town, without any especial effort upon the part of any one.

The boom just came in the natural course of events. Everything was ripe for a rushing development before the rush began.

The Bay Shore Cut-off Railroad was nearly completed. The big smelter was rapidly assuming form under the hands of contractors and construction gangs, and all the old industries were expanding and enlarging. At this juncture along came Peck and Garrett. Seeing the situation and recognizing its significance at a glance, these gentlemen buy, at one stroke, 400 acres right up against the north line of our town, right on the Bay Shore Cut-off

Railroad, and comprising the very choicest, most eligible and most beautiful sites for homes and business houses on the entire peninsula. Peck's addition is ready for the market, and the market is ready and eagerly awaiting Peck's Addition.

On May Day the market will open and a boom begin which will last all summer, and add thousands to our population and hundreds of thousands to our assessed values.

The new Board of Fire Commissioners has started out right. The people should uphold the action or the proposed action of the Board for the enlargement of the fire district and the purchase of additional equipment for protection against fire.

Improvements in the way of substantial residence buildings have extended into nearly every portion of the town site. These buildings should have protection. The fire district should embrace the entire town site. The tax to raise the needed funds will be light if spread over the entire town site.

With a strong, well-equipped fire department, this town will be able to obtain a rating of its own much lower than the tariff on country risks, now prevailing. The money paid out for fire equipment would be returned through lower rates for fire insurance.

### Hide in Church to Kill Prince.

Brussels, April 26.—An anarchist, armed with a dagger, a loaded revolver and other weapons, was arrested yesterday in a church where Prince Albert of Belgium, nephew of King Leopold and heir presumptive to the throne, was about to visit. One of the attendants of the church accidentally discovered the man hidden in a confessional box. Later three other anarchists, similarly armed, were arrested in the rear of the church. They admitted they were French anarchists. The authorities are convinced that the prisoners intended to assassinate the prince.

### Finds Diamond on Quicksilver Claim

Ukiah, Cal., April 26.—W. P. Hanisch this week found a small diamond on his quicksilver claim on the head of Dobe creek, in Lake county. He also took out \$250 in gold in one pocket. Needless to say there is a rush for mining locations in this neighborhood. This is the first white diamond ever discovered in this section.

### Shonts Will Help Drake University.

Des Moines, Ia., April 26.—Theodore P. Shonts has decided to give some of his wealth to Drake University, which was founded by his father-in-law, former Governor Francis H. Drake of Iowa. President H. M. Bell of the institution announced last night that Mr. Shonts will give the university fifty scholarships to be effective at the beginning of the 1907 school year. He will turn over to the school each year \$5,000.

### Fear Mining Man Is Murder Victim.

## BRIDGE IS FIRED TO WRECK TRAIN

THE SOUTHERN RAILWAY THE  
OBJECT OF REVENGE AND  
ROBBERY IN INDIANA.

Town Marshal Is Wounded by a  
Stranger Whom He Tries to  
Arrest on Suspicion.

Evansville, Ind., April 26.—An attempt to set fire to a bridge upon the Southern Railway, near Temple, Ind., from motives of revenge, or for purposes of robbery, was frustrated last night by W. E. Cummins, the Town Marshal of English, Ind., who was shot twice by two men believed to be the guilty parties. About midnight the night operator at Temple saw a fire in the middle of the bridge near his station. Going to the spot he found a bunch of waste burning and extinguished it.

After he returned three freight trains passed the station. When they had passed he again saw flames upon the bridge and upon investigation found the bridge had been set on fire the second time. He notified the train dispatcher at Princeton, who telephoned the Marshal of English to go to the bridge on a train which was then arriving at English, and to pick up all suspicious men along the track. After leaving English he came upon two men, halted them and demanded that they give an account of themselves. One of the men opened fire upon the Marshal, shooting him twice, wounding him in the hip and in the bowels. Those who were with the Marshal succeeded in arresting one of the men, but the other got away. A posse is being organized to search for the man who shot the Marshal.

The latest information indicates that there were four men in the party and that they have been located in the woods near English.

The arrested man refuses to talk.

### WATSON FIGHTS WITH A NEGRO.

"Tom" Has a Set-to With Colored  
Porter on Pullman Car.

Augusta, April 26.—The railroad and race problems were joined on a train between Atlanta and Augusta yesterday, when Thomas Watson, once Populist candidate for the Presidency, and now editor of a magazine at Atlanta, engaged in an altercation with a railroad porter, which ended in blows.

Mr. Watson was in a Pullman car and was annoyed by the slow time made by the train and by what he termed the lack of courtesy showed him by the railroad officials. He and the conductor engaged in a talking match, in which the porter soon became interested, the negro defending the railroads. Then Mr. Watson grew excited and gave the porter a smashing blow in the face with his "grip." For a while it looked as if serious trouble would be the outcome for the negro, Mr. Watson, his friends and the conductor, but finally an atmosphere resembling peace was restored, and the persons concerned were given an opportunity to care for injured heads and hurt feelings. While the row was in progress the train was stopped.

### Exposes Murderous Plot.

Goldfield, Nev., April 26.—That rewards of money were offered to assassins by the Industrial Workers' Union, together with promises of the moral support of the union is brought out in the testimony of W. L. Claibourne, a member who turned State's evidence against the ringleaders of the local organization under indictment for murdering J. Silva, a boycotted restaurant keeper. A reward of \$250 was offered for the death of Jack Davis, a miner.

### Murder Stops Marriage.

Oil City, Pa., April 26.—Thaddeus Ross was shot and killed here yesterday by Miss Belle Stroup, who immediately committed suicide. Ross was to have married Miss Drusella Samsell, Miss Stroup's successful rival. All were of prominent families.

## PEARY TO SAIL IN JUNE

PREPARATIONS BEING RUSHED  
ON THE ROOSEVELT FOR HER  
NORTHERN VOYAGE.

New York, April 26.—Robert E. Peary, more hopeful than ever of reaching the pole, is rushing his preparations to take the Roosevelt again. He hopes to leave New York by the end of June or in the first week of July. After wintering on the north coast of Grant Land, he will make his dash for the pole in February and hopes to return triumphant about fourteen months after steaming from New York.

Only the lack of absolute certainty that enough money will be forthcoming to finance the expedition is troubling him.

"It is incredible, with so many men in New York who can spare \$100,000 without missing it, that the expedition should be abandoned for lack of funds," said Mr. Peary yesterday. "Honestly, I have no doubts that the money will come from somewhere, though I have no absolute assurance of it as yet."

Mr. Peary regrets that a statement was recently made that he had \$200,000 in hand to finance his expedition.

"Forty thousand is the absolute limit of my resources so far," he said, "and the expedition cannot start until the amount is increased to \$100,000."

### Falling Wall Blocks Traffic.

Chicago, April 26.—The front of the eight story brick building at 346 and 348 Wabash avenue, East Side, between Congress and Harrison streets, collapsed yesterday, tumbling into the street and carrying several of the floors with it. The crash was preceded by no warning and several cab-drivers on the near-by stands had narrow escapes. The elevated railway trains were blocked for some time on account of the debris which covered the tracks.

The building is fifteen years old and was acquired a year ago by Jacob I. Kesner, who remodeled it. Recently the Kline Furniture Company rented and occupied the three lower floors.

### Stays at Post Though Wife Is Dying.

Cincinnati, O., April 26.—Joseph A. Morris, an old soldier and watchman in the United States Sub-Treasury, while on duty early yesterday received a message that his wife was dying and wanted him to come and say goodbye. The old man started to leave, but at the door of the treasury remembered his oath not to leave the building under any circumstances. He stayed at his post and when he got off watch his wife was dead.

### Summer Cottages Destroyed by Fire.

Millers Falls, Mass., April 26.—One hundred summer cottages and a summer hotel at Lake Pleasant, two miles from here, were destroyed by fire today. The loss is estimated at \$115,000. The cause of the fire is not known.

The settlement is controlled by the Spiritualistic Camp Meeting Association and is divided into two sections, the Uplands and the Lowlands. Practically every building in the Lowlands was destroyed, only the railroad station and five of six cottages remaining.

### Refuses to Marry Him and Is Killed.

Dresden, Tenn., April 26.—Miss Winnie Strong, daughter of a wealthy farmer living near here, was shot and killed by William Sawyers because she refused his offer of marriage.

### Tonopah Gamblers Held Up

Tonopah, Nev., April 26.—Two masked men, a sawed-off shotgun and a big revolver influenced Charlie Patterson, the dealer, and three players to hand over \$1,800 at the Cobweb Saloon. Suspects have been arrested.

### Volcano Terrifies Chileans.

Lima, April 26.—The volcano of Villa Rica is in eruption. The outbreak has increased the panic among the inhabitants of the Valdivia district of Chile, who were already in great terror because of the eruption of the volcano Puy Rhue.

## BURNING GREASE ENDANGERS LIFE

HALF A MILLION POUNDS OF  
LARD MAKE MONSTER BLAZE  
AT PITTSBURG.

Fire in Packing Establishment Gives  
Fire Department a Hard Com-  
bat Before Controlled.

Pittsburg, April 26.—One of the most remarkable and spectacular fires seen in this vicinity started last night in the William Zoeller Packing Company plant, in Allegheny, across the river from this city.

Early today when the fire was thought to be under control, a large fireproof warehouse, in which was stored half a million pounds of lard, suddenly burst into flames. All efforts to extinguish the fire in this department were futile and the firemen finally fastened the iron doors of the building, shutting in the burning lard.

The interior of the building soon became a seething fury. Spurting from crevices, doors and windows, streams of hot grease ran into a sort of trench hurriedly prepared in an endeavor to prevent the hot fluid from spreading over the surrounding territory. Danger was encountered at every turn by the firemen, who stood by in case the walls of the warehouse should collapse, and prevent the blazing lard from reaching the adjoining property.

Shortly after the fire was discovered last night and while thousands of spectators were gathered in the vicinity, a dozen large ammonia tanks exploded with terrific force. There was a panic among the spectators, but no one was injured.

Fire was first discovered in the killing department of the plant and is supposed to have been caused by crossed electric wires. Owing to the inflammable nature of the grease-soaked wooden work, this building was soon beyond control.

The fire practically burned itself out and it was said that \$300,000 would be a conservative estimate of the loss.

### PREPARING FOR CONGRESS.

Sacramento to Collect \$50,000 to Entertain Irrigation Delegates.

Sacramento, April 26.—At a meeting here yesterday, attended by a hundred prominent men, from twenty counties of the State, held under the direction of the local board of control of the fifteenth national irrigation congress, steps were taken to raise \$50,000 for the proper entertainment of the congress during its sessions in this city next September. The work of raising this fund was given into the hands of the board of control, with authority to appoint subsidiary committees in every county of the State. The board may raise the funds through Boards of Supervisors, by popular subscriptions or otherwise as it may see fit.

### Prince Eitel Kicked by a Horse.

Berlin, April 26.—Eitel Frederick, Emperor William's second son, fell from his horse during a cavalry drill yesterday afternoon on the Doebritz grounds, near Potsdam. Alarming reports were spread here regarding his condition. It was reported that the Prince was suffering from concussion of the brain, and that he had also been kicked in the face by his horse. Later, however, a telephone message from Potsdam said that the first reports were exaggerated and that there was no cause for fear of serious results.

### War on Tuberculosis.

New York, April 26.—The campaign which is being waged to prevent the spread of tuberculosis is expected to receive a new impetus from the annual meeting of the National Association for the Study and Prevention of Tuberculosis which will be held in Washington on May 6, 7 and 8. Members of the association, including representatives of State and city boards of health and of various organizations formed for the purpose of combating disease, will be present from all over the United States.

## IN DARKEST NEW YORK

POLICE SPEND NIGHT CLIMBING  
LAMP-POSTS AND LIGHTING  
GAS WITH MATCHES.

New York, April 26.—Although the public suffered inconvenience last night on account of the most unique strike this city has seen for many days, that of the lamplighters, the brunt of the trouble was borne by the police. Good-sized sections of the five boroughs, especially the Bronx, the upper part of Manhattan and the outlying parts of Queens were in darkness until late, save for the light cast by a three-quarter moon. Early in the night, when the more remote populace suddenly became aware that the customary illumination was not forthcoming, complaints began to pour in upon police headquarters and so Commissioner Bingham ordered that the police render all the assistance possible.

Much discomfiture resulted. Some of the patrolmen climbed the lamp posts and used matches, a process which required numerous matches, as the night was rather breezy. Others who had more forethought, took along poles and tapers, but unfamiliarity with the work resulted in the ruination of numerous mantles. To cap the climax strikers put out some of the lights where some of the police beats are four and five miles long, and word came by telephone to police headquarters that unless help was vouchsafed it would be daylight before all the lamps had been attended to. This necessitated calling out police reserves to help light up the lamps.

The gas street lamps all over the city are burning this afternoon and will remain lighted until further orders. The police have been ordered to arrest any one trying to extinguish the lights.

### Schools Closed by Cupid.

Nebraska City, Neb., April 26.—Almost all the public schools of this county are on the verge of being closed—a condition due to the many marriages among the women teachers. With 225 teachers necessary to have the schools fully equipped, there is a shortage of 173.

The trouble is due to the marrying of the women teachers in the country schools. Scarcely does a teacher get used to her school until some farmer comes along and marries her.

Twenty schools have been closed entirely, the trustees giving up the job of getting a teacher who will not marry.

### HAS ONE CENT SURPLUS.

Unendorsed Draft for Trifling Sum Prevents Balancing of Books.

Chicago, Ill., April 26.—For the last fifteen years the Chicago post-office has had a surplus of one cent on its books. No one has been able to find the source of the surplus or to whom the money was due until yesterday, when W. L. Clucas, a special agent of the North American Life Assurance Company, notified postoffice authorities that he held a draft for one cent on the office. It was issued on January 5, 1891, to his father, W. J. Clucas of Lebanon, Ill.

W. J. Clucas was postmaster of Lebanon, Ill., in the administration of Grover Cleveland. At the end of Cleveland's term of office Mr. Clucas sent in his statement.

It then appeared that he had sent in one cent too much. It was returned to him in the form of a draft. Mr. Clucas wished to keep the draft as a remembrance, never cashing it. After his death in 1899 the draft was turned over to his son, who kept it as a relic.

After the settlement of the estate Mr. Clucas found it never could be cashed, as his father had not endorsed it in his name. For this reason the postoffice auditor will never be able to balance his books unless Mr. Clucas takes the matter into court.

MORE LIGHT ON LOOTING OF  
THE TRUST COMPANY OF  
AMERICA.

Loan Clerk Said to Have Had  
Wealthy Accomplices in His Dis-  
honest Dealings.

New York, April 26.—It was learned last night that the amount of bonds stolen from the Trust Company of America by William O. Douglass, the assistant loan clerk, was in excess of \$400,000. All of those bonds have been located.

It was learned that the major part of the stolen bonds were taken from the strong box of the company by Douglass shortly before he fled on Friday last. His purpose in doing this, it was admitted, was to compel the company to overlook his smaller thefts if he should return this block.

That a prominent Boston lawyer is to figure in further proceedings in connection with the arrest of Douglass and C. M. Dennett was persistently reported on Wall street today. He is reported to have urged Douglass to take about \$1,000,000 worth of bonds and turn them over to Dennett. The Boston lawyer is now supposed to be in this city and is being watched by detectives. When President Thorne of the Trust Company was asked whether criminal proceedings will be taken against a third man, he replied that so far as he knew the arrests of Dennett and Douglass ended the search for the men alleged to have taken part in the crime.

### Attempt to Kidnap P. H. McCarthy.

San Francisco, April 26.—Not since the days when Millionaire Campbell of Honolulu was kidnaped and held for ransom have the police of San Francisco worked on as strange a case as their great case of today—the attempt to kidnap and perhaps murder P. H. McCarthy, president of the Building Trades Council of this city.

In running down this strange kidnaping tale the police have run into masks and chloroform, and a lonely vacant house.

Two men are under arrest for the contemplated crime; a third man has confessed to the plot, and the police are still searching for four others—for seven men are charged with being concerned in the design on the liberty and perhaps the life of the president of the Building Trades Council.

### JAMESTOWN FAIR OPENS.

President Roosevelt Reviews Naval Parade in Hampton Roads.

Norfolk, Va., April 26.—Norfolk, Newport News and their neighbors blossomed out in a sea of color today at the opening of the Jamestown Tercentenary Exposition. Although there remains much to be done, there is more than enough novelties at the start to interest all sightseers, and the remaining attractions undoubtedly will be placed in position before many days have passed.

The Austrian cruisers and the English warships arrived yesterday and were greeted by the American Atlantic fleet. Fortress Monroe saluted the flagship of each visiting fleet as they arrived.

President Roosevelt arrived this morning on the Mayflower, accompanied by Mrs. Roosevelt, Miss Ethel, Archie and Quentin, and upon their arrival were saluted by the aggregation of warships anchored in the harbor.

The President formally opened the exposition this morning immediately after his arrival, after which he reviewed a grand naval parade.

A grand reception will be given the President this evening.

### Trying to Preserve Alhambra.

Madrid, April 26.—A meeting of prominent citizens has been called by the Governor of Grenada to consider what steps shall be taken to preserve the Alhambra, some of the buildings of which, it is stated, are in danger of collapsing.

## FRATERNAL ORDERS

## F. O. E.

South City Aerie, No. 1473, will hold a Memorial Service on Sunday, May 5th, in Metropolitan Hall. This is the day appointed by the Grand Aerie to commemorate the passing away of brothers who have been called from our midst. Their faults we have forgotten; their virtues we hold ever in lasting memory, and we trust that all members of the local branch of the Order will be present. Members of all fraternal orders are invited to attend.

## I. O. R. M.

While the Grand Officers failed to live up to their engagements, the officers and members of Tippecanoe Tribe, No. 111, had a jolly time Thursday evening last. Speeches by members who had not visited the Wigwam for many moons showed that the fraternal spirit was not dead, and the declaration has gone forth—no back seat for us; we must lead. Numerous applications for membership were considered, and, with new blood, new life is inevitable. Watch the Order grow.

Wahnita Council, No. 35, Degree of Pocahontas, I. O. R. M., will give an old fashioned "shindig" Saturday evening, May 4th. Good music engaged. Ladies free.

## F. &amp; A. M.

One of the pleasant fraternal events of the week was a visit to San Mateo Friday night by Francis Duke Lodge. A special car was chartered, which left South City at 7:30, taking the jolly "bunch" of twenty-five. After the Lodge a banquet was held, enlivened by music by the San Mateo quartette. At an early hour the crowd returned, much pleased with their brother lodge at San Mateo and with the satisfaction of an evening well spent.

## U. A. O. D.

Druids who visited San Jose with Old Friends' Grove, of San Francisco, Sunday last met a few former residents of South City. J. J. Sullivan stands first and foremost. He is looking well, says he is doing well, and as foreman of the gravel beds for the Southern Pacific in Los Gatos, should not be financially embarrassed. He sends regards to all old friends.

## W. O. W.

Hurrah for Woodcraft! Long live that noble order, is the slogan cry which has resounded through South City for the past couple of weeks, and to-day the protecting branches of that noble society are placed over almost every family in this town.

Progress Camp might well feel proud of the work it has accomplished, but it is only fulfilling the mission to which each true Woodman is solemnly pledged—protecting the wife and child, and helping the poor and needy. Truly it is a noble work and the efforts of our Organizer, who went from factory to factory and from house to house, and told the husband and father the duty he owed to his wife and child, were crowned with success, and as Wapple himself says—why not?

Woodcraft is an order that always has, and always will stand for home and country. It is full of love for our dear ones, and hence is an order of vim and vitality.

Those men who are now going to join its ranks will never feel sorry for the step they have taken.

Their memory shall live after them, and they will leave this world with the consolation that in life they did their duty and when they have passed away their loved ones will not be unprovided for.

## Bryan in Runaway Upset.

Morrisville, Vt., April 26.—William J. Bryan was thrown from his carriage in a runaway yesterday while being driven to the railway station. The driver in an effort to control the team made a sudden turn, which hurled the Nebraskan from his seat into the midst of the crowd waiting to bid him farewell. Half a dozen men caught the statesman, who made an address after getting his breath.

## THE SOUTH CITY

We do not know what there is in our State until we go and see. There is a town in the edge of San Mateo county, just over the border line of San Francisco county, a town facing the bay on one side and breathing ocean air on the other, a town out on a curve of the S. P. Railroad, called South San Francisco. We see it sometimes called South City, and it is a place of beauty, as all that section of the peninsula is, but at the same time it has been lassoed by progress. It has an improvement company and when any thing comes in sight that company catches it. It may be said to be off the main line in fact for all the trains going south do not go out on the curve, but six or eight do and a car line connects every few minutes with the main line near the Holy Cross Cemetery.

The little city has many buildings going up and several of them of the industrial kind. Smelters are here and a meat backing house working hundreds of men. Fine buildings for hotels, restaurants, stores, and banks are new and well occupied. There is one of the most magnificent halls here for general purposes to be found anywhere, and while it not so large as our armory, it is as pretty and has a grand stage and curtains.

Now this place will soon tunnel through the mountains to San Francisco, and five cents will be the fare. As it is to-day it is fifty minutes out, but the improvement company will not have it so. In two months the road will be completed to the city around the bay's edge.

Lands are now being prepared for division, and a large city of industries is springing out upon the world, where erstwhile the flowers blossomed and the fresh grass waved in the cool ocean airs.

This is already a city. Our neat little contemporary, a well established weekly, the ENTERPRISE, has the field with Donald R. Green in charge. It is in a neat new office and the work it furnishes in the job department is most pleasingly and elegantly done by a corps of printers amid a handsomely equipped office.

## ENERGY-PROGRESS

It would be worth an excursion for the Valley people to visit South City. It would be a grand thing for us all to see what progress can do, what it has done, where hundreds are coming and none leaving. This town must necessarily be a home for those who now reside in San Francisco, as soon as the tunnels are cut and the electric railroads are finished, as soon as more rapid transit is secured and that will be very shortly, for men of energy and progress are at the helm.

It is believed that capital will be denied nothing in its desire to come to the place, all else save progress is forgotten.

There is not the rich and fertile superabundance of lands around as there is with us; there is no such beautiful river as the Sacramento, there is not room for progress as with us, but there is the will to do and they do it.—Colusa Sun.

## DARING DIAMOND ROBBERY.

Man Makes Way With a Tray of Diamond Rings in Broad Daylight.

Oakland, Cal., April 26.—One of the most daring diamond robberies in the history of Oakland occurred yesterday when two men, with the assistance of two confederates outside the store, made off with about \$5,000 worth of diamond rings from the store of P. C. Pulse & Co., at the corner of Thirteenth and Washington streets.

The men entered the store and asked to be shown some diamond rings, each one dealing with a different clerk. When the trays were brought out and one of the clerks, a lady, was turning to get some others one of the thieves disappeared with his plunder, trays and all, followed by two of the young ladies from the store.

The thief hurried through the Delger building to Broadway and there boarded a street car, but rode only a few blocks, when he got off the car and disappeared. The police have been unable to capture him so far.

PECK-GARRETT CO.  
HERE TO STAY

New Firm Will Fix up Offices in Post Office Building and Fly Penants From Roof

The Peck-Garrett Co. are certainly hustlers. This firm has been working for several weeks an engineering crew, making a survey that will guarantee to the public accurate descriptions and locations of all street and lot corners in their subdivision. While it has cost them a great deal of money to make the survey, they feel justified in the extra expenditure. The entire handling of this subdivision is to be along this line of high grade thorough efficient work. They propose to make good streets, fine side-walks, put in a first class sewer system, etc. Without question this will be the first high grade subdivision placed on the market south of San Francisco.

The firm has leased the office occupied by Judge Cunningham. They will paint the building a bright orange color, fitted up in a modern fashion, and will place flag staffs with the firm's penants. This building will add a touch of color to the local situation.

W. N. Harris and his staff will be in charge of the South City end of the Company's business. Street work and grading is going on at the present time and additional men and teams will be added as quickly as they can be had for this work. The arroyo that now runs through the tract is to be filled solid and the principal street of the subdivision will be built over it. Broadway is to be the name of the main street of the Peck-Garrett subdivision. It will run from the county road clear through the tract and intersect with the automobile boulevard. This will make it the main entrance to South City and it should develop into the finest business property.

The inquiry at the Company's office at San Francisco for lots and information covering this tract is far beyond their expectations and is most gratifying. Already fully one hundred lots have been spoken for and deposits made thereon. At this rate the tract will last but a short while. Peck & Garrett report that the information possessed by investors in reference to the industrial activity at South City, has surprised them very much. Everyone seems to be anxious to get into the section. It shows factories and shipping facilities; realizing that these conditions tend to permanent values. Nothing makes a

## Blind Pupils.

An artist in Paris had much difficulty in getting his pupils to make use of the extremely "impressionistic" ideas of art. One evening at a large dinner party he asked an elderly gentleman next to him, who was very shortsighted, how the gentleman at the foot of the table appeared to him. "Well," replied the nearsighted one, "I see a very white spot, which I take to be his shirt front, and a flesh colored spot, which I know to be his face."

"Ah," exclaimed the artist enthusiastically, "how I wish my pupils could see things as you do!"—Searchlight.

## Feeling Heat and Cold.

The principal reasons that we feel objects that are cold when brought in contact with the skin quicker than those that are warm is that the skin, being a very poor conductor of heat, absorbs heat slowly from an object of a higher temperature than itself, while other objects which are cooler and which in nearly every instance are better conductors of heat than the skin absorb heat readily from the skin, and hence a sensation of cold is felt at once.

## The Marsh Wren's Sagacity.

Birds often have more sagacity than is generally accredited them. The long billed marsh wren, which builds a substantial nest of rush leaves, swinging in the tall rushes of a marsh, invariably makes several nests, but only uses one. This is undoubtedly for the purpose of misleading its enemies. The nest used is always the best hidden, while those not used—the decoy nests—may be easily found by those who seek them.

## Bad Penmanship.

Mr. Youngwed—This dessert is—pardon me—perfectly dreadful. Mrs. Youngwed—I'm sorry, dear, but the fact is the recipe was given me by a friend, and her handwriting is simply atrocious.—Fliegende Blätter.

## A False Alarm.

There is no greater misfortune than not being able to bear misfortune.—Latin Proverb.

The advertising campaign inaugurated by this Company is the most extensive ever started around San Francisco Bay. They already have on the press several hundred thousand pieces of literature. That, with their agency force, newspapers, magazines, bill boards advertising, is expected to create more interest in South City than anything that has ever taken place. The company reports that they expect to be ready for their opening sale the first week in May.

The engineer in charge of this work is Carl Helpisch.

## Making It Pleasant.

"I am nineteen years old and go to parties a good deal. I want to make myself pleasant and agreeable, but am a poor conversationalist. Could you suggest some topics of conversation that would take well in mixed company?"

MABEL.

Yes, Mabel. As soon as you enter the parlor shake your head and exclaim in a loud tone:

"Oh, dear! I washed my hair yesterday and can't do a thing with it!"

That makes a hit right away and puts every one at ease. This expression can be used whenever conversation lags. Music is a great help. Express yourself this way:

"Well, I don't know anything about music, but I do know what pleases me."

This will give the idea that you are a musician.

To discuss art all you have to do is look at the pictures on the wall and when you see one you like exclaim:

"Isn't that a beauty?"

This will divulge your artistic sense. At the supper table reach for the olive dish and say:

"There was a time when I couldn't eat olives, but I can eat a whole bottle of them now."

Then take five in one grab, and people will like you for saying what you mean. With these few hints you'll find conversation comparatively easy. —Detroit Free Press.

## Sugar In Coffee.

The average amount of sugar used in coffee is a study which has become so much of a fascination to a young man who frequents restaurants pretty constantly that he has taken to going to different places for each meal in order to enlarge the sphere of his observations among different classes of people, says the Philadelphia Record. "Poor people, as a rule," he says, "use more sugar than rich people, and it's also a pretty constant rule that men drink sweeter coffee than women and that old men have the sweetest tooth of all when it comes to coffee. It is noticeable, too, that drinkers of after dinner coffee make it very much sweeter than that which they take in the morning. I know a middle aged man who takes just two lumps to a cup in the morning, which is below the average, but into the little cup he takes after dinner he puts six full sized lumps. This makes a sort of slurp of the drink, which, I suppose, takes the place of after dinner bonbons."

# To Manufacturers

The earthquake did but little damage to South San Francisco. The industries located here, the Western Meat Company, the Wool Pullery, the Butler Brick Company, the Pacific Jupiter Steel Company, the Steiger Pottery Works, the W. P. Fuller White Lead Works, and other enterprises, are all in full operation to-day. Not one of them having suffered any serious impairment by reason of the earthquake.

The South San Francisco Land and Improvement Company planned South San Francisco as a manufacturing suburb of San Francisco. With that object in view they originally purchased 3500 acres of land in San Mateo county on the bay front five miles south of the City of San Francisco, and have developed their property so that to-day they possess perfected nearly every feature desired by manufacturers.

## SOUTH SAN FRANCISCO

Is a railroad terminal; it is on the main line of the Southern Pacific Railroad and accessible to all railroads; has deep water communication; owns and operates for its industries, a railroad connecting with the Southern Pacific and the water front; has electric street car service from factory to town and direct to San Francisco; has an Electric Light and Power Company; owns an independent water works, and has an abundance of fresh water for factory and house; has wharves and docks; a perfect sewerage system; a bank; a town hall; and a population of 3000 people; an extensive and fine residence district, where workingmen may secure land at reasonable prices and on favorable terms, as homes for themselves and their families.

## FACTORY SITES

Can be obtained from the South San Francisco Land and Improvement Company on most reasonable terms.

The American Smelting and Refining Company recently purchased from this Company 200 acres of land and are on the ground to-day arranging for the immediate construction of a plant costing upward of \$5,000,000. This means a vast increase in population, and a great augmentation for the benefit of all industries of every detail pertaining to rail and water communication.
